

## Introducing 3 Models Based on 1 Portable Container/Foundation

Life Cube Inc. is the sole source supplier of instantly deployable shelter systems based on the **unique rolling shipping container that transforms into a folding floor** supporting units filled with survival solutions for a wide spectrum of customers, including military, emergency preparedness, humanitarian relief, and the recreational camping sector in the U.S. and globally. Leveraging years of research and development tightly focused on inflatable and hard wall shelter designs, the company is disrupting the shelter industry with innovations and deployment capabilities not typically available in traditional offerings. **The Life Cube has never required forklifts or cranes.** The product line is providing our customers with living and operational capabilities in remote and hostile environments which are fully equipped with power, light, heat, and optional cooling and water purification systems and other components.

**LC-12 Soft Wall Shelters: Military, Emergency Preparedness and Humanitarian Relief** Designed to be the most versatile shelter system available today, LC-12, the latest generation of the Life Cube is the industry's most durable, spacious, and instantly inflatable shelter, intended for unlimited off-grid use. **Buoyant for floods!**

**Rigid Wall: Military, Emergency Prep and Humanitarian Relief**

This new hard surface platform is the first in the industry to consist of insulated interlocking foam panels coated in a proprietary Polyurethane formulation for added strength, insulation, and durability. **No tools, crane or flat packs!**

**The Ice Cube: Cold Storage Anywhere** This fully insulated and refrigerated unit was developed following Cool Cube, a project for U.S. Army Natick Soldier Systems Center to serve as a food storage facility for Forward Operating Bases (FOBs). It features locking door, shelving, air-lock seal, **R-40+ insulation, 2-Hr setup, plug-in 110!**

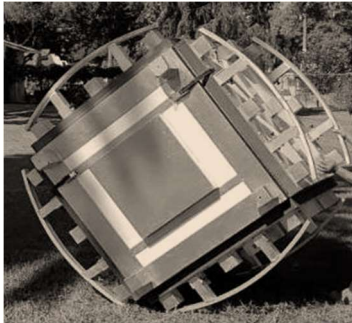

*“Life Cube is critical to providing capability at the edge.” – C.Bencal, Exec VP, Indiana Innovation Institute*

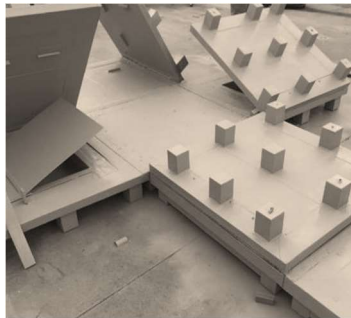

*“As the end-user of temporary shelters in the most austere conditions, the suite of Life Cube products would have made our logistic support vastly easier, more nimble, and more capable.” - 30-year Navy SEAL Captain*

*Shelter, Power & Provisions: All-in-one Box, Airdroppable, Light Weight, Mobile, Off-grid, High*

Roll into Place

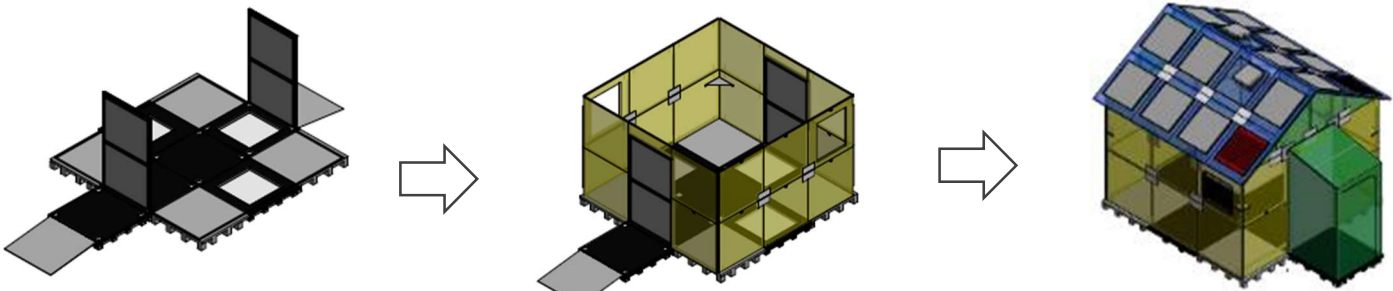

Unfold into Floor

Inflate into Shelter

**Soft Wall Shelter, 160 sq. ft, Inflate in 5 minutes** Rigid hard surface raised floor & canopy, Lighting, Inflation Unit, 2 windows, 2 doors, Solar panels / conditioner / inverter, Rain-water collection system, Net Cargo Loft for storage, Covered entryway / vestibule, complete with onboard Power for inflation, Exterior water storage. **Options:** Custom colors available, Insulation package (R10), Additional hallway connections, windows, Water Purification & Filter, Airlock isolation capabilities, ECU for heating and cooling (generator required), Air filtration system, Power Upgrade, Fuel and/or water storage within the floor.

**Rigid Wall Shelter 160 + 125 sq. ft loft, 4 Hour Assembly.** Portable, Fully Insulated, Integrated Raised Floor, 2000 W off-grid solar power, Lighting, 2 Windows, Covered entryway, Locking Doors, Ports for Shore Power and A/C, Sleeping Loft. HazMat washdown. **Clean Cube or Field Hospital models** include: Shower, Sink, Drainage, Radiant Heat, Skylights, Water and/or Fuel Storage. **Options:** Quick-Adjust Feet up to 6" for uneven terrain, Buoyant, Color upgrade, Power upgrade, Additional Windows & Doors, Hallways, Fire Proof or Ballistic.

**Portable Refrigerator / Freezer 144 sq. ft, 2 Hour Assembly** HIGHLY INSULATED: R-40 (or more), Generous interior (12' x 12' ft., 6-7 ft. headroom), 100 linear feet of shelving, Easy and fast set-up time, Shore Power 110 or MRU, Proprietary fire-retardant industrial coating for power-wash capabilities, inside and out, Interior space and Shed Roof including weather-proof air-lock seals.
