

## The world's first air-droppable, rapid inflatable, totally off-grid soft walled shelter

Designed for rapid deployment and off-grid survival, LC-12 provides a completely self-sufficient, fully powered, portable life support shelter for use in remote, extreme environments.

### Built to be Tough

Durable container unfolds into a raised hard surface platform  
Built-in insulation provides thermal barrier from elements  
MIL-SPEC canopy material, other options available  
Tested in 55 mph winds untethered

### Off-the-Grid and Self-Contained

Integrated Lithium-ion power system with inverter  
Spacious interior: 11 ft. width, 12 ft. headroom, over 160 square feet of usable space  
Easy and fast set-up time (five-minute unpack and inflation, 17-minute re-pack)  
Off-the-grid self-sufficiency (solar power, battery packs, water purification)

**Life Cubes stack to store.  
Hoops for repositioning the unit.  
Unfold to deploy in five minutes.  
Strike and store in any weather.**

Life Cube innovations are born in response to real-world needs. We take care to understand how the military and our emergency preparedness and humanitarian relief customers will use our products in the field. We're continuously improving the utility, quality, and function of our products, one shelter and one detail at a time. Designed to be the most versatile shelter system available today, LC-12 is the latest generation of the Life Cube and is the industry's most durable, spacious, and instantly inflatable shelter, intended for unlimited off-grid inhabitation.

Square footage	160 sq. feet plus cargo loft
Dimensions	12' x 12' x 12' + Porch
Interior Space	1331 cubic feet
Canopy Fabric	20 oz 1000 Denier
Port	Standard 12" ECU port
Shore Power Inlet	Available per user requirement
Floor elevation	6"
Lighting	LED
Water Pump	12-volt water transfer pump
Power: Basic included	300 watts for device charging
Power Upgrade: + \$8k	600 watts to run air filter, etc.
Propane Unit	Optional for air & water heating

Mobile medical for the American Red Cross

**Basic LC-12 Price: \$30,000**

- Rigid hard surface raised floor and canopy
